

SecureStat[®] 360

Introducing SecureStat[®] 360, technology life cycle asset management tool

UNIONTOWN, OHIO – Securitas Electronic Security, Inc. (SES) is pleased to introduce the latest innovation to the SecureStat[®] family of web services. As an advanced feature of SecureStat[®], 360 tracks, manages and reports on a products' full spectrum of data from product deployment to replacement. Integrated through a sleek new dashboard, 360 provides a product part number, serial number, firmware, installation date, sold date, location and much more. SecureStat[®] 360 offers visibility into critical, actionable data that allows security managers to best maintain an inventory and health status of their security assets.

First launched back in 2012, SecureStat[®] remains the industry's leading online security management portal. The comprehensive modern web platform provides security managers the tools to view, measure and control their security program. Since SecureStat's inception, SES has made continuous investments in developing and evolving the web services ecosystem, introducing new services such as Service Messenger, All-Clear, SOS-Alert and now 360.

"We are excited to introduce SecureStat[®] 360 as the first of its kind in the electronic security industry", said Mike Beattie, SES Chief Information Officer & SVP IT, "From product installation to replacement, SecureStat[®] 360 empowers a complete, 360-degree view of your security technology assets life cycle."

"Our goal is to always be a trusted advisor to our clients, helping them make informed decisions on how best to manage, maintain and upgrade their technology assets", commented Tony Byerly, SES President & Chief Executive Officer, "This enhancement is another innovative tool we're proud to offer that does just that and more. SecureStat[®] 360 is our latest web service designed with input from our clients, keeping their security program priorities ours."

SES is officially introducing SecureStat[®] 360 to clients and prospective clients with demonstrations available at the Global Security Exchange (GSX) conference SES booth #1301, September 27th – 29th, 2021. Later this fall, SecureStat[®] 360 will be fully integrated and available for SES clients throughout North America.
